Art Unit: 3728

Allowable Subject Matter

1. Claims 3-15, 17-30 and 33-41 are allowed.
2. Newly submitted claims 43-50 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Group I: Claims 3-15, 17-30 and 33-41, drawn to a combination of a nail holder strip having a plurality of nail holders, classified in Class 206, subclass 338 and others.

Group II: Claims 43-50, drawn to a subcombination of a nail holder, classified in Class 411, subclass unknown.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination as claimed does not require the particulars of the first stiffening stem cantilevered from the lower surface and a second stiffening stem cantilevered from the lower surface with the second stiffening stem being independent of the first stiffening stem. The subcombination has separate utility such as being used by itself for holding a screw.

Art Unit: 3728

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because by their different classification and because they are capable of separate manufacture, use and sale, restriction for examination purposes as indicated is proper.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 43-50 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. This application is in condition for allowance except for the presence of claims 43-50. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Art Unit: 3728
